Why buyers choose us — six reasons

Holds water like a sponge

8–9× its weight — fewer waterings, healthier roots

Aerated root zone

Won't compact like soil; roots stay oxygenated

Sustainable & renewable

Coconut by-product — a true peat-moss replacement

Lightweight & clean

Easy to ship and handle; pest- and weed-free

pH-stable & reusable

5.5–6.5, multiple seasons from one block

Low EC washed

≤0.5 mS/cm, Cal-Mag buffered option for hydroponics
